Sukabumi, West Java

I am a 5th-semester student of the Informatics Engineering Department at Nusa Putra University. With an GPA of 3.86, I have a strong interest in technology, especially in web development. I have experience in web development on both the front-end and back-end. I am proficient in various programming languages, such as HTML, CSS, JavaScript, PHP, MongoDB and MySQL. I also have experience using various frameworks and libraries, such as Laravel, CodeIgniter, Bootstrap, Tailwind, and ExpressJS.

Work Experiences

Digital Kode - Sukabumi City, Indonesian

Jul 2023 - Aug 2023

Back-End Developer Internship

Digital Code is a startup company that provides a variety of digital services, from website development, app development, mobile development to UI/UX.

- Developed the dzikirpop application using PHP, JavaScript, MySQL, and RestAPI.
- Collaborated with HMTI to develop the HMTI website using Laravel and Tailwind, and implemented features that include user authentication and authorization.
- Developed the Pondok Pesantren As-salam wali santri visitation system using native PHP and MySQL.
- Developed the Permata Hati Home Schooling Information System on the psychotest menu for students. Features implemented include question creation, answer assessment, and result reporting.

PT Educa Sisfomedia Indonesia - Salatiga, Jawa Tengah

Feb 2024 - Jun 2024

Web Back-End Developer Internship

Gamelab Indonesia adalah lembaga pendidikan dan pelatihan kerja yang didirikan oleh PT Educa Sisfomedia Indonesia (Educa Studio) berdiri sejak tahun 2011 (13 tahun) dengan Ijin LPK Nomor: 503/NAKER/IMLPK/001/411/XII/2020. Berdirinya lembaga ini berawal dari kebutuhan talent di industri game development hingga Educa Studio menggagas sebuah talent pool dengan format training course bertajuk Gamelab Indonesia.

- Building a REST API with ExpressJS for Front-End Developers
- Developed a website using jQuery and Bootstrap for the UMKM Rotis Cake and Bakery.
